Adding a Favourite SKU

Solis MINI 4G 700W Solar Inverter - Single Phase

SKU: Solis-MINI-700-4G

[Overview](#)[Description](#)[Technical Information](#)[Documentation](#)

This slim and ultra-lightweight inverter's design allows one person to install it with ease. The inverter is aesthetically pleasing making it ideal for domestic installations. It has a low start up voltage of 60V as well as having over 97% max. efficiency. The inverter is IP65 protected alongside several other protection functions. The input voltage range is between 50V and 600V with precise MPPT algorithm. WiFi and GPRS are optional interfaces which can be purchased separately and retrofitted at any time. A WiFi and monitoring app is available to allow the user to monitor their system remotely. This inverter comes with a 5 year warranty as standard but can be easily extended to 10 or 20 years at a low cost.

- Enter a name for your favourites and click 'Save List'. This will create an order template under the name you have chosen which will hold all the products relating to this template. If you repeatedly order the same products, then you can just use this template each time you order.
- Beside the templates that you save you can then add all the products within that template to your basket and head straight to checkout.
- You can save lots of different favourites for example you could have a 4kW Domestic Install Template, a 3kW Off-Grid System.
